I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Comments: I use a hormone replacement compound which my M.D. feels is best provided by an out-of-state compounding pharmacy. The results have been dramatic in bone density testing (combined with exercise, etc) over the widely-distributed Premarin-Provera regime. Would you really want to reverse that progress?
